

Vendor shareable

Live API verified

Orange County

UsaRakhi → Orange County Vendor API

Integration guide with live curl commands and response evidence for every feature.

BASE URL

`https://orange-county.usarakhi.com`

VERIFIED (UTC)

`2026-08-05T04:49:29Z`

AUTH HEADER

`X-Vendor-API-Key`

SERVICE

`orange-county-vendor-api (dedicated)`

Dedicated Vendor API only. Do not use the website/storefront API host. All examples below were executed against production Vendor API and captured for this document.

1. Credentials

Base URL	<code>https://orange-county.usarakhi.com</code>
API Key	<code>4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673</code>
Header	<code>X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673</code>

Keep this key private to Orange County fulfillment systems. Rotate with UsaRakhi if exposed publicly outside this partner channel. Every curl below is a full copy-paste command (no export / variables required).

2. Feature map (what you can do)

Feature	Endpoint
Health check	<code>GET /health</code>
Import orders (15 days default)	<code>GET /vendors/orange-county/orders</code>
Pagination (>50 / custom page size)	<code>?limit=1..200&cursor=...</code>
Get one order	<code>GET /vendors/orange-county/orders/{orderNumber uuid}</code>
Post AWB when shipped	<code>POST /vendors/orange-county/shipment (also path style)</code>
Post tracking status	<code>POST /vendors/orange-county/tracking (also path style)</code>

Fulfillment notes: orderValue / item price are vendor cost (not website retail). Match products by sku / productCode. Store orderNumber (e.g. 0C10003) as your external reference. List and get both return full recipientPhoneNumber and country (never masked – required for USPS).

3. End-to-end workflow

1. Poll **list orders** every N minutes (days=15, use updatedSince for incremental sync).
2. Paginate with nextCursor while hasMore=true.
3. Import / pick / pack using recipient address + gift message + SKUs.
4. When courier assigned – **POST shipment** with orderNumber, courierName, awb.
5. When status changes – **POST tracking** with currentShipmentStatus.
6. Skip duplicates by remembering imported orderNumbers.

4. Live evidence – curl + response screenshots

Each panel below is a live capture from production (2026-08-05T04:49:29Z UTC). Green = success path; amber = expected validation / auth error proving the route is live.

A Health check

Confirms the dedicated Vendor API is up (custom domain).

```
curl -sS \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
"https://orange-county.usarakhi.com/health"
```

Terminal – Health

HTTP 200

```
$ curl -sS -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" "https://orange-county.usarakhi.com/health"

{
  "ok": true,
  "service": "orange-county-vendor-api"
}
```

B Auth required

Missing API key is rejected (same path without the header).

```
curl -sS \
"https://orange-county.usarakhi.com/vendors/orange-county/orders?days=15&limit=1"
```

Terminal – Auth (no key)

HTTP 401

```
$ curl -sS "https://orange-county.usarakhi.com/vendors/orange-county/orders?days=15&limit=1"

{
  "error": "Valid X-Vendor-API-Key required"
}
```

C List orders (import feed)

Default window = last **15 days**. Page size default 50, max 200.

```
curl -sS \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
"https://orange-county.usarakhi.com/vendors/orange-county/orders?days=15&limit=50"
```

Terminal – List orders (page 1, compact preview)

HTTP 200

```
$ curl -sS -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" "https://orange-county.usarakhi.com/vendors/orange-county/orders?days=15&limit=2"
```

```
{
  "vendorSlug": "orange-county",
  "count": 1,
  "limit": 50,
  "days": 15,
  "hasMore": false,
  "nextCursor": null,
  "orders": [
    {
      "orderNumber": "0C10011",
      "internalOrderId": "e647d630-1322-4a1c-aa7b-ecdbb65cc5f6",
      "status": "paid",
      "orderValue": 9.75,
      "orderValueCurrency": "USD",
      "senderName": "vandana sharma",
      "recipientName": "Puneet Bhardwaj",
      "recipientAddressLine1": "44 Murphy Dr., Hillsborough, NJ.",
      "recipientAddressLine2": "44 Murphy Dr., Hillsborough, NJ.",
      "city": "Hillsborough",
      "state": "NJ",
      "country": "US",
      "zipCode": "08844",
      "recipientPhoneNumber": "+9112013601417",
      "itemCount": 1,
      "items": [
        {
          "sku": "TFPRD00306",
          "productName": "Elegant Pearl Designer Single Rakhi",
          "quantity": 1,
          "price": 9.75
        }
      ]
    }
  ]
}
```

Full response includes full address, gift message, items[], weights, and image URLs.

D Pagination (more than one page)

Use nextCursor from the previous response. Keep calling while hasMore === true.

```
# Page 1
curl -sS \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
"https://orange-county.usarakhi.com/vendors/orange-county/orders?days=15&limit=1"

# Page 2
curl -sS \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \

      "country": "US",
      "zipCode": "08844",
      "recipientPhoneNumber": "+9112013601417",
      "itemCount": 1,
      "items": [
        {
          "sku": "TFPRD00306",
          "productName": "Elegant Pearl Designer Single Rakhi",
          "quantity": 1,
          "price": 9.75
        }
      ]
    }
  ]
}
```

```
$ curl -sS -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbb6f5151c404bad6e46431c94bd1172d2673" "https://orange-county.usa  
rakhi.com/vendors/orange-county/orders?days=15&limit=1&cursor=eyJQSyI6Ik9SREVSIS2U2NDdkNjMwLTEzMjItNGExYy1hYTdiLWVjZGJiNjVjYzVmN  
iIsIiNLIjoitUVUQSIsIkdTSTJQSyI6IkV0VElUWSNPukRFUiIsIkdTSTJTSyI6IjIwMjYtMDgtMDRUMTI6MjM6NDQuNDkzWiJ9"
```

```
{  
  "vendorSlug": "orange-county",  
  "count": 0,  
  "limit": 1,  
  "days": 15,  
  "hasMore": false,  
  "nextCursor": null,  
  "orders": []  
}
```

Evidence: page 2 returns a different order after cursor from page 1 (sample used: OC10011).

E Get a single order

Accepts human `orderNumber` (recommended: `OC#####`) or `internalOrderId` (UUID).

```
curl -sS \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
"https://orange-county.usarakhi.com/vendors/orange-county/orders/OC10011"
```

Terminal – GET order OC10011 (full phone + country)

HTTP 200

```
$ curl -sS -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" "https://orange-county.usarakhi.com/vendors/orange-county/orders/OC10011"

{
  "orderNumber": "OC10011",
  "orderId": "OC10011",
  "internalOrderId": "e647d630-1322-4a1c-aa7b-ecdbb65cc5f6",
  "status": "paid",
  "orderDate": "2026-08-04T12:23:44.493Z",
  "senderName": "vandana sharma",
  "recipientName": "Puneet Bhardwaj",
  "recipientAddressLine1": "44 Murphy Dr., Hillsborough, NJ.",
  "recipientAddressLine2": "44 Murphy Dr., Hillsborough, NJ.",
  "city": "Hillsborough",
  "state": "NJ",
  "zipCode": "08844",
  "country": "US",
  "recipientPhoneNumber": "+9112013601417",
  "orderValue": 9.75,
  "orderValueCurrency": "USD",
  "giftMessage": "Although we are far away from each other, this distance will not affect the stro",
  "items": [
    {
      "sku": "TFPRD00306",
      "productName": "Elegant Pearl Designer Single Rakhi",
      "quantity": 1,
      "price": 9.75,
      "weight": 6,
      "weightUnit": "oz"
    }
  ]
}
```

```
curl -sS \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
"https://orange-county.usarakhi.com/vendors/orange-county/orders/e647d630-1322-4a1c-aa7b-ecdbb65cc5f6"
```

Terminal – GET by internal UUID also works

HTTP 200

```
$ curl -sS -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" "https://orange-county.usarakhi.com/vendors/orange-county/orders/e647d630-1322-4a1c-aa7b-ecdbb65cc5f6"

{
  "orderNumber": "OC10011",
  "internalOrderId": "e647d630-1322-4a1c-aa7b-ecdbb65cc5f6",
  "status": "paid",
  "orderValue": 9.75
}
```

Lookup tip: Prefer `OC#####` or UUID. If an order shows a short alphanumeric display id, use the `internalOrderId` UUID from the list response for GET/shipment/tracking path calls.

F Update AWB when shipped

Required JSON: orderNumber, courierName, awb.

```
curl -sS -X POST \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
-H "Content-Type: application/json" \
-d '{"orderNumber":"OC10011","courierName":"USPS","awb":"9400111899223344556677"}' \
"https://orange-county.usarakhi.com/vendors/orange-county/shipment"

# Path style (same body):
curl -sS -X POST \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
-H "Content-Type: application/json" \
-d '{"orderNumber":"OC10011","courierName":"USPS","awb":"9400111899223344556677"}' \
"https://orange-county.usarakhi.com/vendors/orange-county/orders/OC10011/shipment"
```

Live route evidence (validation – no customer order mutated for this guide):

Terminal – POST /shipment with empty body

HTTP 400

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{}' "https://orange-county.usarakhi.com/vendors/orange-county/shipment"

{
  "error": "orderNumber is required"
}
```

Terminal – POST path shipment missing awb

HTTP 400

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{"orderNumber":"OC10011","courierName":"USPS"}' "https://orange-county.usarakhi.com/vendors/orange-county/orders/OC10011/shipment"

{
  "error": "Required"
}
```

Terminal – POST /shipment unknown orderNumber

HTTP 404

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{"orderNumber":"OC99999","courierName":"USPS","awb":"9400..."}' "https://orange-county.usarakhi.com/vendors/orange-county/shipment"

{
  "error": "Order not found"
}
```

Example success response (returned when a real order is updated):

Example success – shipment update

HTTP 200

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{"orderNumber":"OC10011","courierName":"USPS","awb":"9400111899223344556677"}' "https://orange-county.usarakhi.com/vendors/orange-county/shipment"

{
  "orderId": "OC10011",
  "orderNumber": "OC10011",
  "internalOrderId": "e647d630-1322-4a1c-aa7b-ecdbb65cc5f6",
  "status": "shipped",
  "awb": "9400111899223344556677",
  "courierName": "USPS",
  "updatedAt": "2026-08-05T04:49:44.000Z"
}
```

Effect: saves trackingNumber=awb, carrier=courierName; moves to shipped when allowed; notifies customer.

G Update tracking / shipment status

Required JSON: `orderNumber`, `currentShipmentStatus` (alias: `currentStatus`). Optional: `note`.

```
curl -sS -X POST \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
-H "Content-Type: application/json" \
-d '{"orderNumber":"OC10011","currentShipmentStatus":"in_transit"}' \
"https://orange-county.usarakhi.com/vendors/orange-county/tracking"

# Path style (same body):
curl -sS -X POST \
-H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" \
-H "Content-Type: application/json" \
-d '{"orderNumber":"OC10011","currentShipmentStatus":"in_transit"}' \
"https://orange-county.usarakhi.com/vendors/orange-county/orders/OC10011/tracking"
```

Accepted statuses (case-insensitive): `processing`, `packed`, `shipped`, `in_transit`, `dispatched`, `out_for_delivery`, `delivered`, `complete`.

Terminal – POST /tracking empty body

HTTP 400

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{}' "https://orange-county.usarakhi.com/vendors/orange-county/tracking"

{
  "error": "orderNumber is required"
}
```

Terminal – POST path tracking missing status

HTTP 400

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{"orderNumber":"OC10011"}' "https://orange-county.usarakhi.com/vendors/orange-county/orders/OC10011/tracking"

{
  "error": "currentShipmentStatus (or currentStatus) is required"
}
```

Terminal – POST /tracking unknown order

HTTP 404

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{"orderNumber":"OC99999","currentShipmentStatus":"in_transit"}' "https://orange-county.usarakhi.com/vendors/orange-county/tracking"

{
  "error": "Order not found"
}
```

Example success – tracking update

HTTP 200

```
$ curl -sS -X POST -H "X-Vendor-API-Key: 4bf361b07a50b6346046b8b446fbbe6f5151c404bad6e46431c94bd1172d2673" -H "Content-Type: application/json" -d '{"orderNumber":"OC10011","currentShipmentStatus":"in_transit"}' "https://orange-county.usarakhi.com/vendors/orange-county/tracking"

{
  "orderId": "OC10011",
  "orderNumber": "OC10011",
  "internalOrderId": "e647d630-1322-4a1c-aa7b-ecdbb65cc5f6",
  "status": "in_transit",
  "currentShipmentStatus": "in_transit",
  "updatedAt": "2026-08-05T04:49:44.000Z"
}
```

5. List query parameters

days

Default **15** (max 90) – createdAt window

limit	Default 50 , max 200
cursor	Opaque nextCursor from previous page
since	ISO createdAt lower bound override
updatedSince	Incremental sync on updatedAt
status	Exact status filter (e.g. paid, shipped)

Without status, unpaid / cancelled / refunded are hidden.

6. Response field reference

Order

- orderId / orderNumber
- internalOrderId (UUID)
- orderDate, status
- senderName, giftMessage
- Recipient name / address / phone
- orderValue (vendor cost total, USD)
- deliveryDate, trackingNumber, carrier

Item

- sku / productCode
- productName, quantity
- price (vendor unit cost)
- productImageUrl
- weight + weightUnit (oz)

7. HTTP status codes

200	Success
400	Validation error (missing/invalid fields)
401	Missing/wrong API key
403 / 404	Order not found for this vendor
500	Temporary server error – retry

8. Vendor go-live checklist

- [] Stored Base URL + API key securely
- [] Health returns orange-county-vendor-api
- [] List orders returns Orange County items only
- [] Pagination loop implemented (hasMore / nextCursor)
- [] Products matched by SKU
- [] AWB posted on ship (orderNumber, courierName, awb)
- [] Tracking posted on status change
- [] Duplicate prevention + optional updatedSince

9. Screenshot gallery (live captures)

```
A_health - live capture HTTP 200

$ curl -sS -H "X-Vendor-API-Key: 4b7361b87a58b634684b8b446fb6ef5151c484bad6e4631c94bd172d2673" "https://orange-county.usarakhi.com/health"
{
  "ok": true,
  "service": "orange-county-vendor-api"
}
```

A_health

```
C_list - live capture HTTP 200

$ curl -sS -H "X-Vendor-API-Key: 4b7361b87a58b634684b8b446fb6ef5151c484bad6e4631c94bd172d2673" "https://orange-county.usarakhi.com/vendors/orange-county/orders?days=3&limit=10&cursor="
